

Currently Mapped Greenway Trails
Grand Forks, ND and East Grand Forks, MN.

This map outlines the path and off-path trail system on the Greenway, south of downtown. Most trails are dirt two-tracks, although some narrow walking trails exist.

Not all trails are yet mapped. If you have a GPS unit and would like to contribute, please send data to matthew.burtonkelly@gmail.com and I'll give you credit. If you use these trails or would like to see the trail system developed further, please let me know.

Legal: It's not my fault if you get lost or hurt yourself by following this map. I don't work for the city or the state, I'm just a UND grad student who likes to ride and run on trails.
